ABOUT GRATO ENGINEERING GLOBAL LIMITED

GRATO Engineering Global Limited is a rapidly emerging telecommunications engineering, digital infrastructure, and energy solutions company delivering world-class infrastructure services to Mobile Network Operators (MNOs), enterprise organizations, government institutions, and critical sectors driving Africa's digital economy. The company provides integrated solutions across telecom infrastructure deployment, broadband connectivity, power systems, collocation services, infrastructure sharing, and managed technical operations.

OUR LICENCES

- INTERNET SERVICE PROVIDER (ISP)
- COLLOCATION SERVICES
- INFRASTRUCTURE SHARING SERVICES

With expanding operations across West and Central Africa, GRATO Engineering is strategically positioned as a regional infrastructure partner supporting the modernization and expansion of telecommunications networks throughout both Francophone and Anglophone Africa. The company's growing footprint, combined with its investment in advanced energy systems, broadband infrastructure, and regional technical support capabilities, places it at the forefront of Africa's evolving connectivity landscape.

- NCC Licensed & Compliant
- Global Standards & Best Practices
- Quality Assured Solutions
- Safety & Environmental Responsibility
